

**Plan:**

- What are the positions for your Company's Leadership Team? How can you learn more?
- What position is a good fit for your strengths and interests?
- How will your Company select the members of its Company Leadership Team?

**Do:**

- Volunteer for a position on your Company's Leadership Team.
- Once part of the team, be diligent in your role.

**Review:**

- What do you know now that you did not know before?
- How is your Company Leadership Team getting along?
- How are the other Venturers responding to the Company Leadership Team?
- How would you measure your performance in your role?
- What would you do differently in the future?
- What other positions on the Company Leadership Team would you consider?

**Safety Note:**

Determining which Venturer Scouts will fill certain roles can be contentious. Your Company should have a procedure (for example, casting ballots) prepared should more than one Venturer be interested in the same position.

**Online Resources:**

[Canadian Path Company Handbook](#)

It starts with Scouts

# Company Leadership Team

## Leadership

**The Adventure:**

Your Company is led by an important group of Venturer Scouts called the Company Leadership Team (formerly called the Company Executive). This group is concerned with the big picture for the Company—not the specific details of adventures that are organized and led by Expedition Teams. The Company Leadership Team is responsible for promoting Company membership, ensuring that the Company's program is balanced (that is, there are adventures for every Program Area), managing Company finances, taking care of the Company's gear and so on.

Being part of your Company Leadership Team is a great opportunity to develop some new skills. Investigate the roles on the Company Leadership Team and volunteer for a position you're interested in.
