

Cub Scouts Geocaching Badge

1. Describe what a GPS is and demonstrate a basic understanding of how it works.
2. Explain what the following terms mean:
 - GPS
 - Geocache
 - Geocache attributes
 - Waypoint
3. Describe what types of items are not appropriate in a geocache.
4. Describe what to do with the contents of a geocache when you find one (log book, trading).
5. Describe what to do with a travel bug or geocoin.
6. Describe what 3 of the attributes mean
7. Using a GPS complete the following requirements:
 - Find 3 traditional geocaches
 - Find 1 multi
 - Create a geocache (not necessarily one that will be placed out)
