

Names of Towns and Subcamps*

The World Jamboree will have four Towns in total; three for participants and unit leaders and one for IST members and other adults.

The Towns will be named after the four seasons. In Scandinavia the changes in nature are great between the different seasons, which will be reflected in the different Towns. The three Towns where the participants and unit leaders will live are named Summer, Autumn and Winter, while IST members and other adults will live in the adult town named Spring.

All Towns (except Spring) consist of six Subcamps, making a total of 18 Subcamps. The Subcamps will be named after geographical locations in Sweden. All Subcamp names are connected to the specific season (Town) they are situated in, depending on what the specific place is known for. At the Subcamps and Subcamp Centres the theme will also be reflected in, for example, the activities available or the food or beverage served. As a preparatory activity, your units will get to know what Subcamp they will be staying in, and then learn more about that particular location. Subcamp placement will be sent out closer to the Jamboree. The names are as follows:

Subcamps in Summer:

Finnerödja – an area famous for its grand strawberry fields. (3)

Karlstad – a town where the sun always shines. (4)

Smögen – a small summer town by the sea with fabulous seafood. (3)

Stockholm – a city built on islands and the capital of Sweden. (6)

Vimmerby – the birthplace of the famous children's book author, Astrid Lindgren, where, during the summer, you can meet Pippi Longstocking, Karlsson-on-the-roof and other famous characters.

Visby – a medieval town located on the popular summer island of Gotland. (2)

Subcamps in Autumn:

Bohuslän – a province where you can fish the famous crayfish that is feasted on in early autumn.

Hunneberg – a beautiful national park situated by the largest lake in Sweden, Vänern.

Kivik – a town famous for hosting a big apple market in autumn.

Klarälven – a river where they used to drive logs, now great for rafting. (7)

Sarek – a national park in the far north of Sweden, with a wonderful display of colours in the early autumn.

Svedala – in the vicinity of Svedala you can stroll in colourful beech forests during autumn. (5)

Subcamps in Winter:

Jukkasjärvi – a town in northern Sweden famous for its ice hotel.

Kiruna – the most northern town in Sweden.

Mora – after 90km of skiing one of the world's longest skiing competitions ends in this town.

Polcirkeln (the Polar Circle) – north of here the sun never rises for at least one day in December.

Åre – Sweden's oldest ski area which has hosted world championships in alpine skiing.

Örnsköldsvik – famous for its world class ice hockey players.

The number beside each of the Subcamps indicates approximately how many Canadian Patrols we expect will be housed there.
